**AMENDMENT TO THE ABSTRACT**

Please add the attached ABSTRACT OF THE DISCLOSURE to the application.

## ABSTRACT OF THE DISCLOSURE

The invention relates to a wound care product that provides a biochemical environment around a wound to promote wound healing. The wound care product includes a keratin protein fraction material in which the protein fraction is intact, is from the intermediate filament protein family or the high sulfur protein family and in which the protein fraction is S-sulfonated. The invention also described a method of making a wound care product.
